

**FULBRIGHT****2023 - 24 African
Scholar Program****Application
deadline:
April 1,
2022**

The U.S. Embassy Public Diplomacy Section announces the 2023 Fulbright African Scholar program to conduct postdoctoral research or a curriculum development program during the 2023/24 academic year at a U.S. academic or research institution. We strongly encourage applicants to incorporate activities that build university partnerships between Zimbabwean higher education and U.S. universities. The premier international educational exchange program sponsored by the United States Department of State, the United States Congress annually appropriates the funds for the Fulbright program.

We welcome all applications, regardless of academic discipline, faculty rank, gender, and age. Preference will also be given to individuals who have not visited the United States for any appreciable period within the past five years. A good command of English and at least three years of university teaching experience is essential. Applicants must be Zimbabwean citizens living and working at Zimbabwean universities and/or research institutions.

Research Grants

Awards of 3 to 9 months to conduct research in any academic discipline at a U.S. academic or research institution beginning no earlier than August 2023 and no later than March 2024. Applicants must hold a doctorate or equivalent terminal degree in their fields at the time of application.

Curriculum Development Grants

Awards of 3 to 5 months to conduct research in any academic discipline at a U.S. academic or research institution beginning no earlier than August 2023 and no later than March 2024. Proposals should be linked to professional duties and demonstrate how the scholar will use the knowledge gained to develop new courses, curricula, or other academic programs at the home institution. Designed for university faculty or administrators with less experience, these grants support academics who may not have had recent access to research or instructional developments in their disciplines. A doctorate degree is not required, but applicants must hold a minimum of a master's or equivalent graduate degree at the time of application.

Grant Provisions

Round-trip economy international travel and excess-baggage allowance for the grantee. Travel is provided for one dependent for awards of 9 months. A monthly cost-of-living allowance, which is subject to U.S. income tax. An allowance of \$750 for books, research materials and travel to professional meetings. An allowance of \$500 for settling in. Limited accident and sickness insurance for the grantee only. An allowance to defray the cost of U.S. medical insurance for a maximum of two dependents.
